HEART & PULSE RATE INTERACTIVE ACTIVITY

SITE: Get in the Zone

<http://www.getinthezone.org.uk/schools/ages-4-11/ages-9-11/game-the-pulse/>

LESSON:

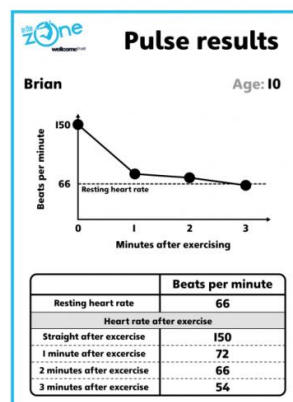

In Mrs. Bell's 5th grade class, students were learning about body systems. They used the Chromebooks in partner pairs to complete the heart rate & pulse activity. One partner controlled the timer in the online application while the other student followed the activity instructions and counted his/her pulse.

This is a FLASH interactive. If you are using an IPAD, you will need to download the PUFFIN browser app.

PUBLISHING RESULTS:

After taking the pictures of the results graph and table, students posted the picture on the blogs. We use the pictures to discuss trends and activity relationship to pulse.

Students used a SNIPPING TOOL on the Chromebooks to take a picture of the results. * This copy was taken from the PRINT function on the activity.

This activity was highly engaging. Kids stayed on task and finished in a compatible window. I used BLENDSPACE to host the links for this activity. Plus, I included other sites for early finishers.

Here's the [BLENDSPACE links page!](#)

How to Take a Screenshot on a Chromebook

Let's say you need to take a snap of your entire screen. To do this you press the 'Ctrl' and 'Window Switcher' keys at the same time:

If you just want to capture a specific area of the screen just add shift to the key combo, like so:

If you're on the Dev Channel of Chrome OS you'll also find a new "Take screenshot" option is available from the "More tools" drop-down in the Chrome Menu.
