

TAGUL

- Find the SYMBALOO link for **TAGUL** in the READING list.
- From the **HOME PAGE**, sign up with **GOOGLE**.
- Students use the CHROMEBOOK log-in.
- **OPEN WORD.**
- Type words to be used in a new file.
- Use ~ (shift of the first key on the number row) to keep words together
- Or, copy words from text. (CTRL C)
- Paste (CTRL V) words
- Words can be linked to definitions or pictures (see **URL options**).
- Change **FONT, COLOR, SHAPE, & LAYOUT** for design.
- The size of the word represents the importance or number of times in text.
- Click **VISUALIZE** when done.
- Remember to **SAVE!**
- **GRAB & SHARE** to copy HTML to embed in BLOG, or make **PUBLIC** and create a link to share in **GOOGLE DOCS**.

Extra Notes: Icons from the site can also be included with words. Check the LATEST NEWS for details.

Suggestions for use: Words Their Way lists (Students could make a cloud each week and link the definitions and or pictures.) --- create graphic for science or social studies projects --- copy text from web page or doc and visualize the most important words of meaning (Can students predict which words will be larger?)
