#### \*University Transfer Component Courses:

A North Carolina community college student who satisfactorily completes, with a grade of "C" or better, courses identified in the Universal General Education Transfer Component will receive credit applied toward the university's lower-division general education course requirements, subject to the following distribution limit: maximum of 6 hours in English Composition, 9 hours in Humanities/Fine Arts/Communications, 9 hours in Social/Behavioral Sciences, 8 hours in Mathematics, and 8 hours in the Natural Sciences.

#### \*\*University Transfer Courses:

A North Carolina community college student who satisfactorily completes a transfer course that is not designated as a Universal General Education Transfer Component course will receive transfer credit for the course. The receiving institution will determine whether the course will count as general education, pre-major, or elective credit.

Note: To be eligible for the transfer of credits to a NC University, the student must graduate with an Associate in Arts (AA) or Associate in Science (AS) degree and have an overall GPA of at least 2.0 on a 4.0 scale and a grade of "C" or better. Students who do not complete the degree are eligible to transfer credits on a course-by-course basis.

### Options after Graduating

- Enter the workforce—entry level positions at local health departments, healthcare settings, non-profit organizations, etc.
- Enroll in a 4-year university (transferring credit is decided by the bachelor degree granting institution)
