Dear Parent:

We provide regular updates to you about your student's academic progress by sending home a Report Card. Once a year we provide you with updates on our school's achievements through the North Carolina School Report Card. This Report Card includes important information about school and student performance, class sizes, attendance, school safety, instructional resources, and teacher quality. There also is information about how our school measured against federal Participation Targets and the number of suspensions and expulsions in our school.

For the third year, each school has received a letter grade to describe its performance. These school performance grades are comprised of student achievement (80 percent) and growth (20 percent). For some schools that meet or exceed expected growth, the growth calculation would lower their letter grade. In those instances, growth is not included in the letter grade..

[For districts: Report data is available for our school district and for the state's education system as a whole. For charter schools: Due to some differences in reporting for charter schools, your school's Report Card contains some additional information, such as finance data, that regular schools do not display.]

I have enclosed with this letter a summary of our Report Card called the Report Card Snapshot. Our school's full Report Card can be found on the NC School Report Cards' website at www.ncpublicschools.org/src. *[For districts: Our school district's report also is available on the Report Card website.]* School Report Cards are provided for regular public schools, charter schools, and alternative schools that were open during the 2015-16 school year.

The numbers only tell part of the story. At our school we are proud of the following special activities that are underway *[include information about partnerships, special programs, and other initiatives that make your school unique. Highlight special accomplishments or unique qualifications of members of the school staff.]*

State and local education leaders are committed to providing parents with more information about schools. Well-informed parents who participate in their children's education and school enhance the learning environment for students and educators alike. In addition, the federal Elementary and Secondary Education Act (ESEA) requires schools to issue Report Cards.

At Cherryville Elementary School your involvement is very important to the success of our school! I encourage you to review our Report Card carefully, then feel free to contact me directly to discuss any questions or concerns you may have regarding the Report Card. I also welcome your feedback regarding other interests you have in our school.

Thank you for allowing me to share this Report Card with you and thank you for supporting our efforts to provide your child with a high-quality education.

Principal
