

WORD AROUND THE WEBB

Webb Street School Weekly Newsletter

Staff Spotlight—Jordan Trogon

In this issue:

- Staff Spotlight
- Field Trips
- PTO
- UNIQUE Curriculum

This is Jordan's 9th year at Webb Street. She previously taught middle and high school and is now working part time as our Assisitive Technology Facilitator. Jordan has been working closely with our teachers this year to implement our new school-wide curriculum, UNIQUE. She is married to Hank and they have two daughters.

Field Trips

Our middle school classes enjoyed a beautiful day at the Cleveland County Fair Wednesday. The students have been reading "Charlotte's Web" in class and they are looking forward to seeing the animals at the fair that were mentioned in the book. Yesterday, three elementary classes and a high school class visited Maple Springs Farm in Dallas. The students enjoyed a hayride and walking through the pumpkin patch.

Respect is one of the greatest expressions of love.

Webb Street School PTO

The purpose/mission of the PTO is to enhance and support the educational experience at Webb Street, to develop a closer connection between school and home by encouraging parent involvement, and to improve the environment at Webb Street through volunteer and financial support. All Parents and staff of Webb Street are automatically a member of the PTO. We do not collect a membership fee so any monetary donations that you can give to the PTO would be greatly appreciated. The PTO is suggesting \$10.00 per family to start our PTO account. All checks can be made payable to Webb Street School PTO and sent to your child's teacher in an envelope designating "PTO." Future PTO Communication will come from webbstreetschoolpto@gmail.com. Make sure to add this email to address book!

UNIQUE - Our *NEW* Curriculum!

The Unique curriculum program has been designed specifically for children with special learning needs. While the foundation of Unique is the academic content standards (reading, writing, math, science and social studies), the lessons are modified to make sure that all children have a way to participate and learn. There is a strong emphasis on life skills that are embedded in each lesson. The primary goal of Unique is to give each child a way to participate, learn and succeed in the classroom. Please feel free to ask your child's teacher if you would like to see the materials and lessons. You may also want to visit the Unique website at n2y.com.

October Units by Grade Level:

Elementary - Animals in Their Homes Middle - What is an Ecosystem?

High - Knowing our Ecosystems Transition - Nutrition: A Healthy Me

Happy Fall Y'all !!
