

10 GREAT reasons to #ChooseSpringfield

- We are proud to be a community school for students in grades K-2. We also have an outstanding program for pre-kindergarten children. Our school has plenty of space, and we are able to provide smaller class sizes, which allows for more personalized instruction.
- All of our teachers are highly qualified in the areas they teach. They are committed to providing challenging teaching and learning experiences for their students.
- Two of our teachers are Pinnacle Leaders, which means they are experts in instructional technology. They work with their fellow teachers to share innovative ideas about how to infuse technology in the classroom.
- Having technology for our teachers and students to use is extremely important. Our goal is to have one computing device for every student, and we hope to achieve our 1:1 student-to-computer ratio this year.
- It's never too early to begin learning about science. Second grade students are involved in the Science Expo program, which gives them an opportunity to develop a scientific hypothesis and work together to test their theory. The Science Expo is one way that we are preparing students for the Science, Technology, Engineering, Arts, and Mathematics they will experience later on in the STEAM Academy @ Stanley Middle School.
- Every week, students enjoy time in the computer lab where they use technology to work on i-Ready lessons. The lessons provide individualized activities based on student's needs and interests. This is another way that we engage our students in science, technology, engineering, and math at a young age.
- To help our students develop a love for reading and enhance their vocabulary and comprehension skills, our literacy teacher works with first grade and second grade students on a regular basis. Having a literacy teacher is a plus for our students as we all know that reading is the foundation for academic success.
- We use the mClass testing program to evaluate student progress in reading. From the beginning of the school year to now, our students have shown double-digit growth in reading proficiency.
- Our PTO is awesome! Our parents work together to raise money for our school through activities such as our popular Spring Fling. The PTO also is supporting efforts to revamp our library.
- Most important, our teachers and staff members truly care about our students and their success. **When we say we are a family at Springfield, we mean it!**

*The best school for
children in Stanley!*
